ORIGIN [REDACTED]

- B-6 1. [REDACTED] reparations out of current production in the Russian Zone averaged 160-175,000,000 RM per month from January to October 1946. This calculation is based on normal, pre-war prices. Since mid-October the figure has sunk.
2. It is estimated that in the State of Saxony, the Russians own 45-50 per cent of the post-war industrial capacity. State-owned plants account for 20-25 per cent, and the rest is privately owned. However, no more than five per cent of private production reaches German consumers.
3. It is claimed that many Russian officers try to prolong their activities in Germany in the face of orders to the contrary from Moscow. Thus, when some Soviet AG plants were suddenly ordered dismantled, the Russian directors invented every possible hindrance with the help of their German aides and with the tacit consent of local SMA and local Red Army commanders.
